Re: Discharge Monitoring Reports for NPDES Permit # WA001902

Dear Mr. Davies:

The U.S. Environmental Protection Agency received a package of data representing July, August, and September 2003 water monitoring for the Leavenworth Fish Hatchery. This package appears to be intended to fulfill the Hatchery's NPDES reporting obligations. The package is incomplete and must be resubmitted with completed Discharge Monitoring Reports compiling the raw data pursuant to your Permit. If you have any questions please call me at (206) 553-1148.

Sincerely,

Christopher Cora
Compliance Officer

Re: September 26, 2001 Reconnaissance Inspection
Pristine Springs, Inc

Dear Mr. Tadlock:

Thank you for the time you spent with Robert Sharpnack and I during our recent visit to the Pristine Springs facility. I am grateful for the time you took to familiarize me with your facility, aquaculture procedures, and your concerns with the Aquaculture Facilities in Idaho Permit. I will share your concerns with our permit writers. If you have any questions please call me at (206) 553-1148. I can also be contacted via e-mail at cora.christopher@epa.gov.

Sincerely,

Christopher Cora,
Compliance Officer

MEMORANDUM

SUBJECT: A106 Leavenworth NFH

FROM: Grover Partee *GRP*

TO: Desk File

Talked to Greg Pratschner on March 11, 1988. He replaced Ralph Malsom as resident manager (Malsom retired). Greg was not familiar with the work proposed but indicated he will check and call me back.

Greg called back 3/14/88. Project will add another settling pond and utilize existing rearing ponds not currently in use. Will send engineering reports.

Greg also said that the DMRs have been sent to Yakima (Ecology - ERO). DOI has just been informed that Ecology will begin charging for processing these. I told Greg he should send the DMRs here. He said he would begin doing so.

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

DATE: MAR 8 1977

SUBJECT: Request for modification of NPDES Permit WA-000190-2 for the
Leavenworth National Fish HatcheryFROM: Lyman J. Nielson, Director
Washington Operations OfficeTO: Lloyd A. Reed, Acting Chief
Water Compliance & Permits Branch

Please initiate the necessary administrative action to change the receiving water designation on the title page of NPDES permit WA-000190-2 for Leavenworth National Fish Hatchery to "Icicle Creek". The need for this change was brought to our attention during a recent compliance inspection at the hatchery.

Re: Modification of NPDES Permit No.: WA-000190-2

Dear Sir:

I am pleased to announce my determination to modify the National Pollutant Discharge Elimination System wastewater discharge permit issued to your facility on December 30, 1974, pursuant to Section 402 of the Federal Water Pollution Control Act Amendments of 1972. The enclosed document is your official copy of the modification.

This modification will become effective and be deemed issued on June 20, 1977, unless a request for adjudicatory hearing meeting the requirements of 40 C.F.R. 125.36 is submitted within 10 days of your receipt of these determinations. If a request is granted, any contested provisions (or uncontested provisions inseparable from contested provisions) will be ineffective until a resolution of the issues raised by the request. You will, however, be subject to any uncontested provisions. A copy of 40 C.F.R. 125.36(b) is enclosed.

Sincerely,

A handwritten signature in dark ink, appearing to read "Lloyd A. Reed", is written over a horizontal line.

Lloyd A. Reed, Director
